DevOps Engineer | Defi Solutions
Lisbon, Portugal | May 2015 - August 2017
Built and managed cloud infrastructure on AWS and Google Cloud platforms.Implemented Docker containerization and automated deployment using Jenkins.Configured and maintained Ansible playbooks for infrastructure automation and configuration management.Conducted regular security audits and implemented measures to improve security posture.

Software Engineer | BlackBee Inc.
Aveiro, Portugal | April 2015 - January 2015
Work with development teams to design and develop software applications using Java, Spring, and Hibernate.Automate build, test, and deployment processes using tools such as Jenkins, Ansible, and Docker to improve software delivery speed and quality.Design and maintain cloud-based infrastructure using AWS services such as EC2, S3, and RDS.

## VOLUNTEERING

Technical Mentor | Code for Good
Jan, 2019 - Dec, 2021
Mentored junior developers in open source projects focused on social impact applications.
- Awarded 'Volunteer of the Month' for outstanding contribution
- Led a team of 5 volunteers in developing a disaster relief coordination app
- Conducted weekly coding workshops for underrepresented communities

Event Organizer | Local Tech Meetup
Since Jun, 2018
Organized monthly tech meetups bringing together 100+ developers and tech enthusiasts.
- Increased meetup attendance by 200% over 2 years
- Secured sponsorships from major tech companies

## PROJECTS

CloudFormation Templates

Developed a set of reusable CloudFormation templates to automate the deployment of cloud infrastructure resources on AWS.
